IV. DESCRIPTION OF HAZARDOUS WASTES

- A. EPA HAZARDOUS WASTE NUMBER Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.
- ESTIMATED ANNUAL QUANTITY For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed wastels! that will be handled which possess that characteristic or contaminant.
- UNIT OF MEASURE For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	T	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

1. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER - Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

- 1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B.C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.

 In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter
- "included with above" and make no other entries on that line.
- 3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) - A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

MISSISSIPPI DEPARTMENT OF NATURAL RESOURCES Bureau of Pollution Control

P. O. Box 10385 Jackson, Mississippi 39209 (601) 961-5171

September 16, 1982

Mr. V. W. Brinkerhoff, III General Manager Scott Paper Company P. O. Box 1081 Hattiesburg, Mississippi 39401

Dear Mr. Brinkerhoff:

On September 10, 1982, a visit was made to your plant to determine its status concerning hazardous waste. As a result of this visit with Steven Grant of your staff, we concur with your letter of August 23, requesting retraction of your Part A application. Scott Paper Company will be removed from our list of hazardous waste treatment, storage, and disposal facilities.

Since at the present time no hazardous waste is generated but the possibility exists when ink stamping operations begin, your EPA ID number will be maintained. At which time you do become a generator, compliance with the Part 262, Generator Standards of the Mississippi Hazardous Waste Regulations, is required.

Please contact us at any time you need assistance.

Sincerely.

Cindy Rich

Division of Solid Waste Management

May 1, 1984

Mr. V. W. Brinkerhoff, III Scott Paper Company P. O. Box 1081 Hattiesburg, Mississippi 39401

Dear Mr. Brinkerhoff:

Re: MSD980540355

On April 24, 1984, the Pollution Control Permit Board formally terminated interim status under the Resource Conservation and Recovery Act for your facility. This action was taken subsequent to the proposed intent to withdraw interim status publicly advertised at an earlier date.

Please feel free to contact me if you have any questions on this matter.

Sincerely,

David E. Lee, P. E. Coordinator, Hazardous Waste Section

DEL:cu cc: Mr. James H. Scarbrough, EPA-Region IV

Re: Hazardous Waste Storage Facility, Hattiesburg Plant

Dear Mr. Lee:

Attached are a Hazardous Waste Notification and Part A of the Hazardous Waste Permit Application for a small Hazardous Waste Drum Storage Area at our Hattiesburg Plant currently under construction. It is our understanding that this is the only requirement at this time for this particular facility and that you would be requesting any additional information required to process the permit.

Please forward us an EPA Identification Number, along with any required authorization to construct the facility as detailed in the application.

Please call this office if you need additional information or clarification of the material submitted.

Sincerely, Luchola I Lardien
